

## CURRICULUM VITAE

### BRUNO BOSCAINI

Bruno Boscaini was born on 15th September 1948, and gained a degree in Industrial and Mechanical Engineering, specialising in Management Engineering at the University of Bologna, and later registered with the Verona Society of Engineers.

Bruno Boscaini gained various work experiences in consulting companies between 1975 and 1981 in the area of business and industrial organisation. He founded his own consulting company, and worked in the business organisation and quality system certification sector from 1981 to 2004, and in time also accepted Temporary Manager positions with leading companies in different commodity sectors.

Bruno Boscaini held the position of company executive manager from 2004 to 2006 with Operations Manager duties at BDF S.p.A.

In 2006 Bruno Boscaini returned to the family business, Masi Agricola S.p.A., in an operational role as the Managing Director to manage the industrial and logistics business.
